Hello! I am a VIRUS, cousins with the Flu and the Common Cold. My name is Coronavirus.

I love to travel... and to jump from
hand to hand to say Hi. High five!

Have you heard about me? Yes? No?
And how do you feel when you hear
my name? 1) Relaxed? 2) Confused?
3) Worried? 4) Curious? 5) Nervous?
6) Sad?

What do you feel about me, the coronavirus? I can understand. I would feel the same way. (If you have a piece of paper, draw a face that shows how you feel about me.)

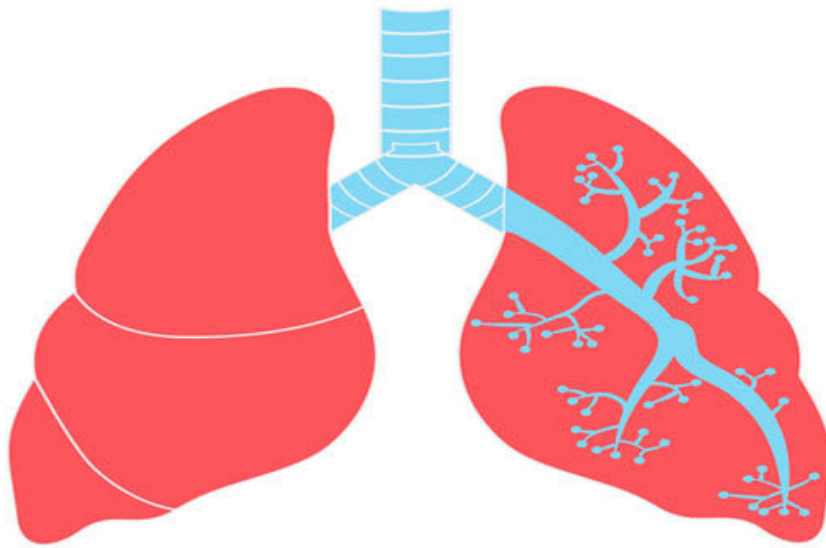

Sometimes adults get worried when they read the news or see me on TV.

But I am going to explain myself so you can understand.

When I come to visit, I bring:
difficulty breathing, fever, and
coughing.

But I don't stay with people for long,
and almost everyone gets better, just
like when you get a scrape on your
knee and it heals. BYE BYE!

Don't you worry! (Name the adults who take care of you.) They will keep you safe.

And you can help: 1) By washing your hands with soap and water while singing a song. You can sing your favorite song, the happy birthday song, or the alphabet song. 2) By using hand sanitizer and letting it dry

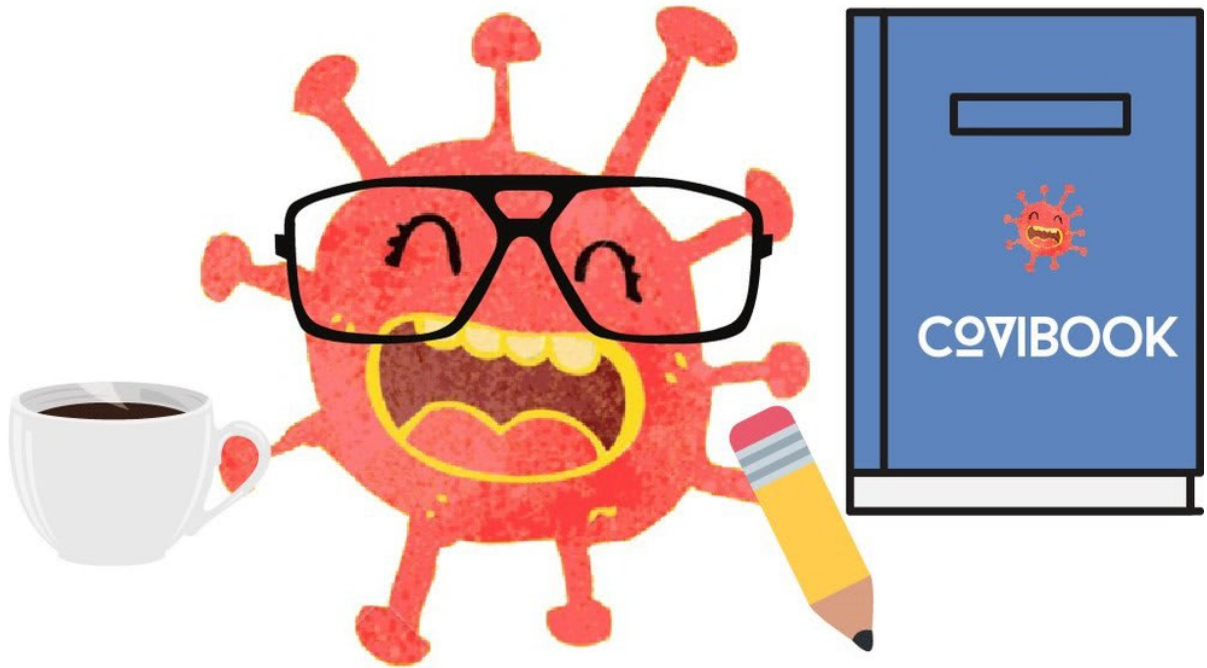

on your hands. Without moving them
count to 10: 1, 2, 3, 4, 5, 6, 7, 8, 9, 10
Once your hands are dry you can get
back to playing!!

If you do all that I will not come to visit while the doctors work to find a vaccine that will allow me to say hi without getting you sick.

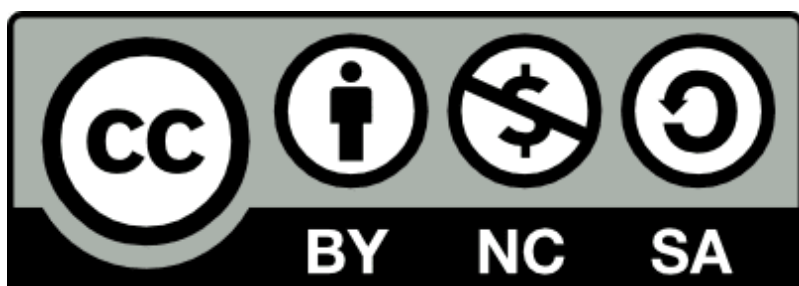

THE END

COVIBOOK Coronavirus is a virus that makes people have difficulty in breathing, fever and cough.

Coronavirus wants to know how people feel about it You are free to download, copy, or adapt this story
